Supply Chain Management for Supply and Procurement Managers

Introduction

Effective upstream Supply Chain Management is increasingly about doing the “right things” and then doing “things right” within the Supply Chain in order to improve and sustain overall business performance

Appreciation of the strategic forces involved and mastery of the tactics and operational techniques required in delivering the benefits of supply chain management is an essential part of the toolkit of any manager working in today’s increasingly global supply environment.

This course aims to enable participants to effectively and efficiently manage supply and procurement operations, and thereby protect their organizations against uncertainty and take advantage of opportunity when it arises.

Methodology

This interactive Training will be highly interactive, with opportunities to advance your opinions and ideas and will include;

- Lectures
- Workshop & Work Presentation
- Case Studies and Practical Exercise
- Videos and General Discussions

Certificate

BTS attendance certificate will be issued to all attendees completing minimum of 80% of the total course duration.

Learning Outcomes

By the end of the program participants will be able to:

- Understand the strategic concept of supply chain and its tactical and operational application
- Demonstrate knowledge of logistics operations and associated supply chain issues, and their impact on supply chain performance
- Understand the impact of procurement activities on the supply chain
- Critically analyze and evaluate best practice solutions identifying those best suited to the management of suppliers and contractors
- Devise and utilize effective measures of performance to maintain and sustain improved supply chain operations
- Lead in the management of upstream supply operations using and applying checklists and models for the planning, execution and improvement of existing and future supply agreements appreciating the need for collaborative behavior

Outline Course Program

Day 1

- **Session 1**
