NEBOSH HSE Certificate in Process Safety Management

Introduction:

NEBOSH HSE Certificate in Process Safety Management has been jointly designed by NEBOSH and the UK enforcement agency - the Health and Safety Executive (HSE). It is designed specifically for those with safety responsibilities in the process industry, such as chemical manufacturing and oil & gas. It focuses on international standards and management systems, highlighting the importance of process safety management in the process industry, enabling students to effectively discharge workplace safety responsibilities.

NEBOSH HSE Certificate in Process Safety Management is suitable for those who have the responsibility for ensuring safety as part of their day-to-day duties including:

- Managers, supervisors and employee representatives within the process industry
- Newly-appointed health and safety advisors.

Course Contents:

NEBOSH HSE Certificate in Process Safety Management is based on International Standards and Management Systems. It consists of one unit:

Unit PSM1: Process Safety Management

- Process Safety Leadership
- Management of Process Risk
- Process Safety Hazard Control

- Fire Protection and Emergency Response

Assessment:

The NEBOSH HSE Certificate in Process Safety Management is assessed by a 90 minute exam consisting of 40 multiple choice questions completed online.

Entry Requirements:

The NEBOSH HSE Certificate in Process Safety Management is a technical qualification. There are no specific entry requirements but the course does assume a certain level of knowledge and experience:

- Health and safety knowledge
- The course assumes a good understanding of general health and safety and it is therefore highly recommended that students hold the NEBOSH International General Certificate or equivalent before studying the course.
- Experience of the Process Industry
- Experience of the Process Industries (such as oil and gas or chemical processing) will be helpful.

Duration: 4 days + exam.
