***General Manager HR,  
AL-HAJ Automotive***

*I'm excited to have an interview with you regarding HSE Manager Position. With over 8+ years of experience, contributing towards building inspiring image of the Organization in this diverse field of Health, Safety and Environment in my current role. I believe that I am a perfect fit for this role.*

*As part of my current role as a HSE Engineer, I have overall responsibility to ensure strict compliance to Organization's HSE standards and procedures, by the employees and Contractors associated with the business. Promotion of safety culture is an integral part of my job responsibilities with focus on continuous improvement of systems and procedures.*

*Among my peers, I am regarded as an analytical, honest, straight forward and work with make it happen attitude. Furthermore, I have a proven track record of translating stakeholder requirements into tangible deliverables that exceed expectations.*

*My CV is enclosed, and will give you further insight into my skill sets, accomplishments, and experience. I look forward to discussing my application with you further. I appreciate your time and consideration.*

*Sincerely,*
