Successful Planning, Organizing and Control

The Course

The environment of current business requires an increased focus on practices and skills in planning projects and work, properly organizing tasks and one's work to improve productivity and delegating work to empowered staff. Businesses and indeed, all organizations, find themselves needing more productive methods of planning, more appropriate goals and effective means of accomplishing work. A focus on using productive best practices allows for effective and efficient management of work and making changes in the organization.

The course is designed to give participants an understanding of several management methods, processes and procedures, as well as practice on several key management techniques. The principles used are easily adapted to an organization's or individual's work assignments. The course presents a methodology of common, standard management techniques using a simple theoretical foundation and enhances learning with practical activities so students can develop knowledge and skill to manage more effectively and efficiently.

The Delegates

The course is designed for anyone who desires to learn practical management techniques that will assist them in developing good planning techniques, using skills to organize themselves and others and developing effective delegation skills. The course is appropriate for those who are responsible for managing any type of group or team or those who want to learn some skills to be able to better manage their work.

The Process

This course is an interactive mixture of lecture, discussion, activities and practice on several management skills. It provides definitions, examples,

discussion and activities designed to promote skill building with interaction and discussion among participants. Activities and work on practice case studies are used to deliberately highlight the concepts taught and allow participants to practice new skills.
