# Developing, Improving & Monitoring Internal Auditing

#### **Introduction:**

By attending this course, you will have the desire to set up or improve your own organization's internal audit function. The development, monitoring and continued improvement of a highly-integrated, internal audit function is essential for the continued financial success, stability and growth of world-class organization. A well designed and effective internal audit system will provide verification and support that accounting and financial policies, procedures and controls are working adequate. An appropriate system of internal controls will be required for the organization to protect itself from the risk of fraud and an effective internal audit function will suggest suitable internal controls, monitor effectiveness of these controls along with other tasks that will lead to greater profitability and lower risk for the organization. This course will feature:

- The issuance of Audit Reports
- The different types of audit and the benefits to be obtained from each
- Developing an Internal Audit Department
- Efficient Planning, Controlling and Recording of an audit assignment
- Effective communication skills for Auditors

#### Who Should Attend?

Accounting and financial professionals and senior management that are presently or may interface with the daily functioning of an internal audit department,

Financial and non-financial professionals who may be appointed to support or interface with an Internal Audit Committee or that might review internal audit findings for Boards of Directors or investor and shareholder reports for other informational purposes, Non-financial professionals that may need to coordinate other activities with an internal audit department and/or share findings, reports or information

### **Course Objectives:**
