Fast Closing Month-End & Year-End Accounts

The Course

This program provides an in-depth overview of the "Fast Close" process, which is the ability of a modern, global organization to rapidly close the accounting books, collect, consolidate and, then, publish its financial statements. This process is widely viewed not only as an indicator of management's abilities to execute its strategic plan in light of the availability of fast, reliable financial information, but also a proxy for good, well-implemented corporate governance. This program will also review the mounting concerns and evidence that the "Fast Close" process, after a long period of sustained improvement, is now in a period of decline, due in large part to the impact of compliance, new accounting and reporting standards and the sheer increase in the volume and complexity of financial information that needs to be consolidated and reviewed.

The Delegates

Any professional involved in the preparation of financial statements, including financial controllers, finance managers, senior accountants, management accountants, general ledger accountants and assistant accountants, and accounts receivable and accounts payable accountants and assistant accountants

- Operational professionals acting upon the financial decisions of others,
 who will gain an appreciation for the fast close process
- Financial systems analysts
- Financial and operational business re-engineering professionals
- Professionals who are held accountable for financial performance and the integrity of financial and information systems

The Process:

Delegates will gain a practical understanding and comprehension of the program topics through a combination of instruction, illustrations, group discussions and other practical, real-life examples.

Course Objectives:

The Goals

By attending and participating in this program, delegates will be provided with an overview of the concepts and methodologies associated with the fast close process and gain insightful practical knowledge by being able to:

- Understand the importance of the fast close process on financial and operational decision-making within an organization
- Examine fast close processes, strategies and best practices as well as consideration of organizational documentation policies and procedures
- Understand the importance of departmental requirements for financial reporting as well as the need for on-going improvements to the closing process
- Provide faster and more accurate data for monthly and year-end account closings with the goal of enhancing communication with internal and external financial statement users

Course Outline:

The programmer Content

Day One

Introduction to Fast Close Concepts

- Different types and benefits
- Steps needed to achieve a fast close
- Analyzing and reviewing the current closing process
- Redesigning the closing cycle
- Finance function stakeholders, redesign and solutions
 - Examining needs of stakeholders
 - Scope of problems for organizations
