Designing and Implementing an Azure AI Solution (AI-100)

Duration: 3 days

Course Overview

Gain the necessary knowledge for designing Azure AI solution by building a customer support chat Bot using artificial intelligence from the Microsoft Azure platform including language understanding and pre-built AI functionality in the Azure Cognitive Services.

Who should attend

This course is aimed at Cloud Solution Architects, Azure artificial intelligence designers, and AI developers.

Prerequisites

Before attending this course, students must have:

1. **Microsoft Azure Fundamentals (AZ-900)**
2. **Understanding of Azure storage technologies**
3. **C# Knowledge**

Course Content

1. **Introducing Azure Cognitive Services**
2. **Creating Bots**
3. **Enhancing Bots with QnA Maker**
4. **Learn How to Create Language Understanding Functionality with LUIS**
5. **Enhancing Your Bots with LUIS**
6. **Integrate Cognitive Services with Bots and Agents**
